## **PLUMBING INSTALLATIONS BY HOMEOWNER**

South Milwaukee Municipal Code Section 18.07(1) allows the owner/occupant of a single-family dwelling who occupies the dwelling for at least one (1) year to perform plumbing installation upon such premise.

A plumbing permit must be obtained and inspections are required.

The plumbing installation shall be performed by the owner/occupant only. No one else shall be permitted to cause such installation unless licensed by the State of Wisconsin as a Master Plumber. Installation by anyone else shall be cause for legal action to be taken by the City of South Milwaukee.

Per South Milwaukee Code Section 18.13(B) this affidavit does not allow owners to perform the following work:

- Underfloor sewer or drain stacks**
- Alteration, removal / addition of hard-piped drains, vents & waterlines.**

The above work must be performed by a licensed plumber.

I feel I am knowledgeable enough to properly install the plumbing work for which I have taken a permit. It will be installed according to the Wisconsin Administrative Code SPS 381-387 and SPS 305, SEC 145 Wis. Stats., and NR812 in a safe and workmanship-like manner.

I have read and understand the above statements and do hereby acknowledge the above statements.
